Artifact: 004.2 Protocol
WISC IV and WIAT III was administered

Describe: Administering, hand scoring, interpreting and writing reports for these two assessment batteries was a very tedious and time consuming task. It was directly related the duties that will be required of me as an educational diagnostician. I am very detailed and meticulous by nature and I enjoyed the feeling of competence and revealing of hypotheses to develop my report.

Analyze: a. The importance of administering, scoring, interpreting and report writing has enhanced and defined my skills as an educational diagnostician.
b. My desired position as a future independent contractor will enable me to fulfill my mission as a life-long learner.
c. My experiences and previous knowledge has been enhanced by my education, research in the case studies I have reviewed, and direct on the job training with special education children.

Appraise: My findings are very beneficial because partnerships with the parent, school and community need to be improved to increase student achievement.

Transform: a. Insights I have gained include a heightened awareness of due process implications.
b. My future plans are directly on target with the need to provide quality, individualized, education services for special needs citizens and increase parent and community involvement.
